

Bristol Homecoming Crafter & Vendor Guidelines 2011

All vendors are to follow the rules set below. The vendors shall be inspected for any questionable items. If any items are found that are objectionable they will be asked to remove such items. If any vendor refuses to remove such items they will have to leave the festival at their own expense.

This is a family oriented festival. We do not allow any obscene literature, pictures, or merchandise.

No drug paraphernalia.

No smoke bombs, stink bombs, firecrackers or incendiary devices of any kind.

No swords, knives, guns, throwing stars, or any other weapons shall be on display or for sale.

All vendors are asked to stay until the festival closes at 11 pm if you need to leave sooner, please see a homecoming member and let them know why and when you are leaving, and when you will be back. This is important for safety reasons.

To the vendors who are returning, we are glad to have you back again this year.

To the new vendors, we are glad you came and look forward to working with you. If you have questions please feel free to ask anyone at the homecoming trailer. If they don't have the answer they will find someone who does.

You must provide your own sun-canopy, outdoor extension cord, and light.

Please do not bring radios unless they have headphones. You are welcome to bring a fan to use.
